Description

Three (3) licenses Authoring Tool Subscription

Productivity

- Start developing your course instantly by choosing from a range of pre-built layout slides, which include text, images, scenarios, and Questions.
- Fast forward your eLearning authoring as you easily copy and paste selected attributes of different objects or components in your courses.
- Explore the intuitive interactions panel, choose from a set of triggers, add conditions, and select from a comprehensive list of actions to assign to the trigger.
- Easily generate eLearning content that meets accessibility standards like Section 508 and WCAG 2.0.
- Create courses that meet accessibility standards by instantaneously adding closed captions for slide videos or audio content.
- Keep learners tuned in to your content as you easily turn text into high-quality speech with a few clicks.
- Add audio files from your system or the asset library, record your own voice, or generate voiceover from text captions with just a few clicks.

Visual Appeal

- Infinite scroll.
- Enjoy the freedom to make your slides look exactly the way you imagine by choosing responsive text or media blocks and editing the appearance, style, layout, color, object shapes, and much more.
- Download ready-to-go slides from responsive Quick Start Projects to create stunning eLearning courses in no time.
- Choose the Google fonts you love without having to log in to Google.

Response eLearning

- Effortlessly create and deliver engaging eLearning content that dynamically adapts to various screen sizes and orientations.
- Use the live preview feature to generate a QR code that you can scan using a mobile device and mirror the project real-time on your device browser.

Widget Gallery

- Effortlessly build drag-and-drop, click-to-reveal, flip cards, image carousels, hotspots, timelines, and much more without programming.
- Make your courses enjoyable as you reveal information only when a learner clicks. Enhance the learning experience by organizing your content into visually appealing and interactive tabs.
- Improve learner engagement by incorporating visually appealing flip cards into your courses without programming.
- Easily generate visually appealing certificates by selecting a design option of your choice and properly defining variables like name, course name, and more.
- Allow your learners to navigate to the next slide, page, or content only after they finish interacting with all the sections in your widgets.

Interactive eLearning

- Offer your learners immersive and hands-on experiences by enabling them to learn and practice using your software applications in a risk-free and controlled environment.
- Maximize engagement in your courses by strategically placing bookmarks on your slide or video timeline.
- It brings together multiple video streams in a visually appealing grid-like arrangement.
- Apart from Next and Back buttons, easily show or hide play button, closed captions, TOC, mute options, Tooltips and much more.
- Use JavaScript coding to build advanced interactions for your slides, objects, images, SVGS and much more.
